**SPBD MICROFINANCE (SAMOA) LTD.
STATEMENT OF THE BOARD OF DIRECTORS
FOR THE YEAR ENDED 31 DECEMBER 2018**

The Board of Directors (“BOD”) submits its report and the audited financial statements of SPBD Microfinance (Samoa), Ltd. (“SPBD”) for the year ended 31 December 2018.

PRINCIPAL ACTIVITY

The principal activity of SPBD is to improve the quality of life of families living in poverty by providing unsecured credit, training, and on-going motivation and guidance to help them start, grow and maintain micro and SME businesses, build assets, as well as, finance home improvements and childhood education. Its corporate vision is to create a network of micro-enterprise development organizations in the South-Pacific and neighbouring regions to empower women through financial access and economic development to help lift themselves and their families permanently out of poverty and improve self-esteem.

SPBD also provides a comprehensive Financial Education program (FEP) to provide meaningful and practical financial education to all its clients. Currently more than 7,000 of our valued clients go through weekly financial education training. This training helps them to manage their economic life better.

RESULTS

The results of operation for the year ended 31 December 2018 are set out in the income statement. SPBD made a pre-tax profit of WST \$794,873 for the year.

THE BOARD OF DIRECTORS

The members of the BOD during the period and at the date of the report are:

- | | |
|--|----------|
| <input type="checkbox"/> Gregory F Casagrande, USA | Chairman |
| <input type="checkbox"/> James Young, USA | Member |

DIVIDEND

The Directors recommend that no dividend be paid on general stock.

OTHER DISCLOSURES

The Company is a limited liability company incorporated and domiciled in Samoa. The address of its registered office is 1st Floor A1.3, NPF Plaza, Savalalo, Apia, Samoa. The postal address is PO Box 1614 and it is located at Apia, Samoa.

**SPBD MICROFINANCE (SAMOA) LTD.
STATEMENT OF THE BOARD OF DIRECTORS
FOR THE YEAR ENDED 31 DECEMBER 2018**

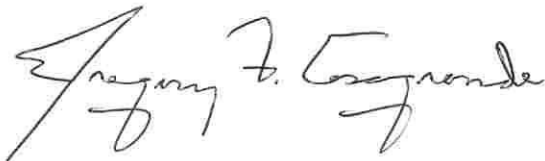

RESPONSIBILITIES OF THE BOD IN RESPECT OF THE FINANCIAL STATEMENTS

The BOD is responsible to ensure that the financial statements are properly drawn up, so as to give a true and fair view of the financial position of SPBD as at 31 December 2018, and of the results of its operations for the period then ended. In preparing these financial statements, the BOD is required to:

- i.** Adopt appropriate accounting policies which are supported by reasonable and prudent judgements and estimates and apply them consistently,
- ii.** Maintain adequate accounting records and an effective system of internal controls;
- iii.** Prepare the financial statements on a going concern basis unless it is inappropriate to assume that SPBD will continue operation in the foreseeable future;
- iv.** Set overall policies for SPBD, ratify all decisions and actions by the management that have a material effect on the operation and performance of SPBD, and ensure they have been properly reflected in the financial statements.

The BOD confirms that SPBD has complied with these requirements in preparing the financial statements.

On behalf of the Board of Directors,

Gregory F. Casagrande

Chairman

Date: 18 March 2019

INDEPENDENT AUDITOR'S REPORT

To the Members of South Pacific Business Development Microfinance (Samoa) Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of South Pacific Business Development Microfinance (Samoa) Ltd, which comprise:

- the statement of financial position as at December 31, 2018;
- the statement of financial performance, statement of changes in equity, and statement of cash flows for the year then ended; and
- notes to the financial statements, including a summary of significant accounting policies.

In our opinion the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2018, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Samoa, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**SPBD MICROFINANCE (SAMOA) LTD.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2018**

1. GENERAL INFORMATION

SPBD Microfinance (Samoa), Ltd. (“SPBD”), was incorporated under the Companies Act 2001 on the 13th day of December 2010 with the Ministry of Commerce, Industry, and Labour (MCIL) of Samoa. SPBD took over the activities, assets, and liabilities of South Pacific Business Development Foundation via purchase agreement. The aims of SPBD are to improve the quality of life of families living in poverty by providing training, unsecured credit and on-going guidance and motivation to help them start, grow and maintain income generating micro-businesses, build savings, as well as, finance home improvements and childhood education.

With the incorporation of SPBD Microfinance (Samoa) Ltd the company is under the umbrella of a Holding Company called SPBD Microfinance Holdings (Singapore) Pte Ltd incorporated in Singapore which is its ultimate parent company. This transformation formally links SPBD Microfinance Ltd (Samoa), (Tonga), (Fiji), Solomon Islands, and Vanuatu as a sister organization enables many efficiencies and operating improvements. Gregory F. Casagrande owns 100% of the Holding Company.

SPBD Microfinance network

SPBD Microfinance Ltd (Samoa) is regulated under Samoa’s Companies Amendment Act 2006 and is subject to the prudential requirements of the Money Laundering Act 2007, at the discretion of the Central Bank of Samoa.

To comply with money laundering prudential standards, SPBD has:

- Internal systems and checks in place, such as “Know Your Customer” (KYC) procedures, record keeping, normal onsite inspections and the current monthly reports to the Central Bank.
- A full-time compliance officer.

SPBD as a non-bank financial institution empowers its members through financial access and economic development to help improve themselves and their families permanently. SPBD is operating in Upolu, Savaii and islands.

SPBD acquired the business License certificate Number 269763/81682 from the Ministry for Revenue Services, Government of Samoa to carry on the business or economic activity of financial leasing.

As at 31 December 2018, SPBD has 28 staff of whom 7 are assigned in Savaii office and 21 in the Head Office in Apia.

SPBD MICROFINANCE (SAMOA) LTD.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2018

2. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies adopted in the preparation of these financial statements are set out below:

a. Basis of Preparation

These financial statements have been prepared in accordance with the requirements of the Companies Act 2001 and the *International Financial Reporting Standards (IFRS)* issued by the International Accounting Standards Board (IASB). The financial statements have been prepared on the historical cost basis as modified by the revaluation of certain financial assets and liabilities. The principal accounting policies are stated to assist in a general understanding of these financial statements. The financial statements are prepared in Samoan Tala.

The preparation of the financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Although these estimates are based on management's best knowledge of current events and actions, actual results may differ from those estimates. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 3.

New or amended Accounting Standards and Interpretations adopted

The company has adopted all of the new or amended Accounting Standards and Interpretations issued by the International Accounting Standards Board ('IASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

The following Accounting Standards and Interpretations are most relevant to the company:

IFRS 9 Financial Instruments

The Company has adopted IFRS 9 from 1 January 2018. The standard introduced new classification and measurement models for financial assets. A financial asset shall be measured at amortised cost if it is held within a business model whose objective is to hold assets in order to collect contractual cash flows which arise on specified dates and that are solely principal and interest. A debt investment shall be measured at fair value through other comprehensive income if it is held within a business model whose objective is to both hold assets in order to collect contractual cash flows which arise on specified dates that are solely principal and interest as well as selling the asset on the basis of its fair value. All other financial assets are classified and measured at fair value through profit or loss unless the entity makes an irrevocable election on initial recognition to present gains and losses on equity instruments (that are not held-for-trading or contingent consideration recognised in a business combination) in other comprehensive income ('OCI').

Despite these requirements, a financial asset may be irrevocably designated as measured at fair value through profit or loss to reduce the effect of, or eliminate, an accounting mismatch. For financial liabilities designated at fair value through profit or loss, the standard requires the portion of the change in fair value that relates to the entity's own credit risk to be presented in OCI (unless it would create an accounting mismatch). New simpler hedge accounting requirements are intended

SPBD MICROFINANCE (SAMOA) LTD.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2018

to more closely align the accounting treatment with the risk management activities of the entity. New impairment requirements use an 'expected credit loss' ('ECL') model to recognise an allowance. Impairment is measured using a 12-month ECL method unless the credit risk on a financial instrument has increased significantly since initial recognition in which case the lifetime ECL method is adopted. For receivables, a simplified approach to measuring expected credit losses using a lifetime expected loss allowance is available.

The Company classifies its financial assets in the following categories; loans and receivables. Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted on an active market; and it comprises loan to customers, cash on hand and at banks; and term deposits. The financial liabilities include borrowings, trade and other payables.

IFRS 15 Revenue from Contracts with Customers

The Company has adopted IFRS 15 from 1 January 2018. The standard provides a single comprehensive model for revenue recognition. The core principle of the standard is that an entity shall recognise revenue to depict the transfer of promised goods or services to customers at an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard introduced a new contract-based revenue recognition model with a measurement approach that is based on an allocation of the transaction price. This is described further in the accounting policies below. Credit risk is presented separately as an expense rather than adjusted against revenue. Contracts with customers are presented in an entity's statement of financial position as a contract liability, a contract asset, or a receivable, depending on the relationship between the entity's performance and the customer's payment. Customer acquisition costs and costs to fulfil a contract can, subject to certain criteria, be capitalised as an asset and amortised over the contract period.

Impact of adoption

The adoption of IFRS9 and IFRS15 does not have an impact on the financial statements of the Company.

New standards, interpretations and amendments not yet effective

There are a number of standards, amendments to standards, and interpretations which have been issued by the IASB that are effective in future accounting periods that the company has decided not to adopt early. The most significant of these is:

- IFRS16 Leases (mandatorily effective for periods beginning on or after 1 January 2019)
- IFRIC 23 Uncertainty over Income Tax Positions (effective 1 January 2019).

Investments and other financial assets

Investments and other financial assets, other than investments in associates, are initially measured at fair value. Transaction costs are included as part of the initial measurement, except for financial assets at fair value through profit or loss. Such assets are subsequently measured at either amortised cost or fair value depending on their classification. Classification is determined based on both the business model within which such assets are held and the contractual cash flow characteristics of the financial asset unless, an accounting mismatch is being avoided. Financial assets are derecognised when the rights to receive cash flows have expired or have been transferred and the company has transferred substantially all the risks and rewards of ownership. When there is no reasonable expectation of recovering part or all of a financial asset, it's carrying value is written off.

SPBD MICROFINANCE (SAMOA) LTD.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2018

b. Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The functional currency is the Samoan Tala (WST).

b. Foreign currency transactions

Transactions in foreign currencies are translated to functional currency at exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated to the functional currency at the exchange rate ruling at that date. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated to the functional currency at the exchange rates ruling at the dates the fair value was determined. The following exchange rates were used to convert monetary assets and liabilities denominated in foreign currencies at year end:

	31-Dec-18	31-Dec-17
NZD/WST	0.5514	0.5429
USD/WST	0.3728	0.3878
EUR/WST	0.3190	0.3173

d. Revenue recognition

The Company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Company's activities as described below.

Interest income

Interest income on investments, loans and advances is recognised as it accrues. Interest on impaired loans is recognised as income only when received.

Fees and charges

Fees and charges are brought to account when they are earned. Fees on impaired loans are recognised as income only when received.

Loan security fee income

SPBD charges and with-holds 2% of the principal amount on the loans approved for disbursement to the customers as security in case the customer dies before full payment of their loans. (This only applies to the group loans). This fee is treated as an income for SPBD as it is not refundable to the customer upon payment of the loan and is recognised when the loan disbursement occurs.

Savings accounts withdrawal fees

A \$2 tala fee is charged by SPBD to its members when they withdraw from their savings account and is recognised in the period in which the fee is charged.

Member Death Benefit Fee

The fees revenue on the death benefit in the past offered by the company was recognised in the period in which the Fees were earned during the term of the contract. In this case the Fee is a one off payment paid at the time the loan is disbursed to the customer. In 2015, it was decided to recognise the one off payment fee in the year in which the payment is occurred. Provisions for death benefit have been consistently accrued in the past years, thus the recognition of the Fee revenue should be recognised once the Fee is received.

Development Fees income

SPBD Samoa charges a development fee of 3% at the time of loan disbursement.

SPBD MICROFINANCE (SAMOA) LTD.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2018

e. Grants

Grants are not recognised until there is reasonable assurance that the Company will comply with the conditions attaching to them and that the grants will be received.

Grants are recognised in profit or loss on a systematic basis over the periods in which the Company recognises as expenses the related costs for which the grants are intended to compensate. Specifically, grants whose primary condition is that the company should purchase, construct or otherwise acquire non-current assets are recognised as deferred revenue in the statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Company with no future related costs are recognised in profit or loss in the period in which they become receivable.

f. Loans

Loans are disclosed net of lending provisions. Term loans are carried at principal balances outstanding plus interest accrued.

The Company adopts the Grameen Bank's group solidarity lending methodology which provides credit that is individually unsecured but secured by the group guarantee policy arrangements. There are two group loan products 1) 52 week loan product and 2) 17 week loan product. The primary purposes of the loans are for establishing new or expanding of micro businesses.

In 2013, two new products have been launched which is SME (Small Medium Enterprise) and OWL (Overseas Workers Loan) program. The OWL Loan product is a 4 months product, whereas SME Loan is 52 weeks loan product. The primary purpose of OWL is to finance travel and visa costs, plus other related costs pertaining to the trip to New Zealand to undertake seasonal job under the RSE scheme. The SME Loan was designed to meet the needs of our old existing members, who continuously maintained a very good business. The Education loan product was introduced towards the end of 2014, to assist SPBD clients in financing their children's school fees.

g. Impairment of loans

The Company conducts loan loss provisioning every quarter to maintain an adequate reserve for doubtful loans. The reserve is determined by applying predicted loss percentages to aged loans grouped according to the age of the outstanding payment. The age of outstanding payment is analysed in three weekly bands from one week to greater than twenty one weeks. 100% provision is automatically assessed for loans whose repayments are more than 21 weeks overdue.

When a loan is uncollectible, it is written off against the related provision for bad and doubtful loans. Such loans are written off after all the necessary procedures have been completed and the amount of the loss has been determined.

If, in a subsequent period, the amount of the provision decreases and the decrease can be related objectively to an event occurring after the provision was recognised (such as an improvement in the debtor's credit rating), the previously recognised provision is reversed by adjusting the allowance account. The amount of the reversal is recognised in the income statement.

Loan recoveries are cases of default loans which have been written off during previous year's and subsequently recovered are credited to income as bad debts recovered in the period in which the recovery is made.

SPBD MICROFINANCE (SAMOA) LTD.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2018

h. Property and equipment

Items of equipment, furniture and motor vehicles are measured at cost less accumulated depreciation and impairment losses. Cost includes expenditures that are directly attributable to the acquisition of assets. Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment.

The costs of the day to day servicing of the property, plant and equipment are recognized in profit and loss as incurred.

Depreciation is charged to profit or loss on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment. The estimated useful lives at which depreciation is charged are as follows:

Computers	2-5 years	Straight line
Office Equipment	2-5 years	Straight line
Furniture and Fittings	2-5 years	Straight line
Leasehold Improvements	4-5 years	Straight line
New/ Used Motor Vehicles	2-5 years	Straight line

The residual value is reassessed annually. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

i. Operating leases

Operating lease payments are recognised as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

j. Cash and cash equivalents

For the purposes of the cash flow statement, cash and cash equivalents comprise balances of cash on hand and at bank including short term deposits which are subject to an insignificant risk of conversion to cash.

k. Value added goods and services tax (VAGST)

As a financial institution, the company is exempt from VAGST. The company however, is allowed to collect VAGST on rental income and claim VAGST on maintenance and other related costs of the building.

l. Income tax

Income tax comprises current and deferred tax. Income tax is recognised in profit or loss except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

m. Accounts payable

Accounts payables are recognised when the company becomes obliged to make future payments resulting from the purchase of goods and services. Trade payables are recognised at cost which is the fair value of the consideration to be paid in the future for goods and services received. Given the short term nature of most payables, the carrying amounts approximate fair value.

SPBD MICROFINANCE (SAMOA) LTD.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2018

n. Employee benefits

The Company contributes towards the Samoa National Provident Fund, a defined contribution plan in accordance with local legislation and to which it has no commitment beyond the payment of contribution. Obligations for contributions to the defined contribution plan are recognised immediately in profit or loss.

Liabilities for annual leave is accrued and recognised in the balance sheet. Annual leave are recorded at the undiscounted amount expected to be paid for the entitlement earned.

Short term benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

A provision is recognised for the amount expected to be paid under short-term cash bonus if SPBD has a present obligation or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be measured reliably.

o. Comparatives

This is the eighth year of operation for the Company and the 2017 comparative figures have been disclosed for comparison.

3. CRITICAL ACCOUNTING ESTIMATES/JUDGEMENTS

The Company makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates and judgments are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

(a) Impairment losses on loans

The Company reviews its loan portfolios to assess impairment at least on a quarterly basis. In determining whether an impairment loss should be recorded in the income statement, the company makes judgments as to whether there is any observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of loans before the decrease can be identified with an individual loan in that portfolio. This evidence may include observable data indicating that there has been an adverse change in the payment status of borrowers in a group or local economic conditions that correlate with defaults on assets in the group. Management uses estimates based on historical loss experience for assets with credit risk characteristics and objective evidence of impairment similar to those in the portfolio when scheduling its future cash flows. The methodology and assumptions used for estimating both the amount and timing of future cash flows are reviewed regularly to reduce any differences between loss estimates and actual loss experience.

Types of loans

- i) 52-weeks Loan are loans granted in Samoan Tala to clients who belong to SPBD Centers. This type of loan is provided to clients at an interest rate of 24.00% for a loan cycle of 52 weeks. Principal and interest payment are made on a weekly basis. Loan amount ranges from a minimum of WST1,250 to WST8,000.
- ii) 17-weeks Loan are loans granted in Samoan Tala to clients who belong to SPBD Centers. This type of loan is provided to clients at an interest rate of 9.00% for a loan cycle of 17 weeks. Principal and interest payments are made on a weekly basis. Loan amount ranges from a minimum of WST300 to WST500.
- iii) SME Loan was launched in August 2013, and the main focus is SPBD good clients who have maintained a very good business. Loan amount ranges from \$8,000 to \$32,000 at 21% interest. In 2017, SPBD has launched a phase 3 of its SME loan product where SPBD has extended its service to the public entrepreneur who operates and maintains a good business, but needs further improvement on the business.
- iv) OWL is Overseas Workers Loan Program, and this new product was also launched in 2013, to assist men and women from Samoa who are selected to take up seasonal work in New Zealand and Australia. SPBD provides 4 months unsecured credit which ranges from \$1,500 to \$3,500 at 12% interest to seasonal workers to pay for visa fees, airfares, and all other related travel costs.
- v) The Education Loan Product was launched in September 2014, to assist SPBD clients in financing their children school fees or tuition fees. SPBD cares about the children's education, thus the reason of introducing this new loan product. Loan ranges from \$300 to \$750 at 10% for 6 months education loan, and 12 months education loan ranges from \$800 to \$1,000 at 20% interest.

10a. RESERVE FOR SPOUSAL DEATH BENEFIT

This reserve is calculated based on 2018 number of spouses passed away, to ensure we provision enough to cover for 2019 Spousal death benefit.

Unearned Fee for MDB

Effective 2017, no more unearned insurance to be recognised, because the amount of MLI collected in 2017 has been fully recognised in the Profit & loss statement.

Unearned Insurance for SDB

Effective 2017, no more unearned insurance to be recognised, because the amount of SLI collected in 2017 has been fully recognised in the Profit & loss statement.

11. MEMBERS SAVINGS DEPOSIT

SPBD developed the micro-savings program in partnership with UNDP and WESTPAC Bank. SPBD formally launched the micro-savings program on October 7th, 2004 following a 3 months pilot-test period and required consultations with the Central Bank of Samoa. Any SPBD new member can open up a savings account with a minimum of \$10 deposit. SPBD also started its savings policy in 2007 whereby 5% loan retention (compulsory savings) goes into a member's Savings account. SPBD is not a regulated financial intermediary and does not use their client deposit for on-lending. Members can withdraw money with prior notice or anytime for emergencies. SPBD provides quarterly financial report, as well as an audited financial report to Central Bank of Samoa. The 5% retention can only be withdrawn by a member after the latest loan is paid off. SPBD deposits collected savings daily in a segregated bank account at BSP Bank.

SPBD MICROFINANCE (SAMOA) LTD.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2018

Loan Loss Provisioning

SPBD conducts loan loss provisioning every quarter to maintain an adequate reserve for doubtful loans. The reserve is determined by applying predicted loss percentages to aged loans grouped by lateness of payment. A loan becomes late as a weekly scheduled payment is missed. SPBD applies the following conservative predicted loss ratios.

Provisioning Ratios for Group Loans	Loan loss provision	Loan Outstanding	Loan Loss Prov. Amt.
1 week to 4 weeks late (<30 days)	5%	925,025	46,250
5 weeks to 8 weeks late (30 to 60 days)	10%	41,390	4,139
9 weeks to 12 weeks late (60 to 90)	25%	20,098	5,025
13 weeks to 16 weeks late (90 to 120)	50%	15,108	7,554
17 weeks to 20 weeks late (120 to 140)	75%	14,314	10,736
21 weeks or more (150 + days)	100%	64,671	64,671
Provisioning for staff loans	5%	269,303	13,465
TOTAL PROVISIONING AS OF 31 DECEMBER 2018			151,840

SPBD provides a 100% provision for loan losses for loans overdue for 21 weeks or more. The above calculation is the net result after 2018 writing off loans have been taken off. The total provisioning in 2018 is \$138,374.91, as per Loan Contingency Reserve at 31 December 2018. SPBD also provides a 5% provision on Staff Loans in 2018.

b) Write-offs

Loan Type	# of Loans	Write off WST	Amount as % of Loan Portfolio
Loan Insurance Losses	26	70,943	0.48%
Loans Written Off – 2018	57	115,832	0.79%
Total	83	186,775	1.27%

There were 26 SPBD members died in 2018, and their loans outstanding balances were written off to coincide with the Loan Insurance policy.

The decision as to which loans to write off in 2018 was made taking into account the age of the outstanding loan compared to the cost effectiveness of management's own evaluation of the likelihood of recovery. Loan write-off in 2018 has been approved by the President.

SPBD MICROFINANCE (SAMOA) LTD.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2018

c) Movements

i) Movement in Loan Loss Reserve

Loan Loss reserve is increased by annual loan loss provisioning expense and decreased by loan write-offs

	<u>156,607</u>	<u>157,840</u>

21. FINANCIAL RISK MANAGEMENT

The Company's activities expose it to a variety of financial risks: liquidity risk, market risk and credit risk. The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Company's financial performance.

The Company's principal financial liabilities comprise borrowings and payables. The main purpose of these financial liabilities is to raise finance for Company operations. The Company has financial assets which mainly comprise cash and cash equivalents and receivables which are directly from operations. All financial assets are classified as 'loans and receivables' and all financial liabilities are classified as 'held at amortised cost'.

The Company's risk management policies are designed to identify and analyse these risks, to set appropriate risk limits and controls, and to monitor the risks and adherence to limits by means of reliable and up-to-date information systems. The Company regularly reviews its risk management policies and systems to reflect changes in markets, products and emerging best practice.

a) Liquidity risk

Liquidity risk is the risk that the Company is unable to meet the payment obligations associated with its financial liabilities when they fall due. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities.

The Company has incurred significant amount of indebtedness and evaluates its ability to meet these obligations on an on-going basis. Based on these evaluations the Company devises strategies to manage liquidity risk including maintaining a sufficient undrawn borrowing facilities to fund liquidity needs. The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of subordinated debt, bank overdraft facilities and borrowings to fund liquidity needs. The Company's liquidity management process includes:

- i) Maintaining a liquidity reserve in the form of cash and credit lines to ensure the solvency and financial flexibility at all times. For this purpose, the Company has net cash balances of \$2.2 million tala at 31 December 2018.

SPBD MICROFINANCE (SAMOA) LTD.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2018

- ii) Managing the concentration and profile of the Company's debt maturities. Refer to the table below for summary of the financial liability maturity profile at 31 December 2018 based on contractual undiscounted payments:

	Within 1 to 3 Months	3 to 12 Months	1 to 5 Years	Over 5 Years	Total
Borrowings	215,493	2,780,664	10,917,331		13,913,488
Creditors		88,257			88,257
Total financial liabilities	215,493	2,868,921	9,047,560		14,001,715

b) Market risk

The Company takes on exposure to market risks, which is the risk that the fair value or future cash flows of financial instrument will fluctuate because of changes in market prices. Market risks mainly arise from changes in foreign currency exchange rates and interest rates. Market risk exposures are measured using sensitivity analysis.

i) Currency risk

Currency risk is the risk that the fair value of the future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Company is exposed to foreign currency risks in connection with scheduled payments in currencies that are not their functional currencies. The payments relate mainly to overseas borrowings. The Company's income statement and statement of financial position can be affected materially by movements in the exchange rates between the US dollar, the Euro and the Samoa tala. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities.

The Company manages its foreign exchange risk by ensuring that net exposure in foreign assets and liabilities is kept to an acceptable level by monitoring currency positions.

Foreign currency sensitivity

The sensitivity analysis below discloses the impact on profit before taxation and equity from changes in the exchange rates of the Tala against the US dollar and the Euro to which the Company has significant exposure.

At 31 December 2015, if the Tala has strengthened/weakened by 10% against the US dollar and the Euro with all other variables held constant, profit before taxation for the year would have been \$14,886 higher, mainly as a result of foreign exchange losses on translation of non Tala denominated borrowings. There would be no impact on other components of equity as the Company has no non-Tala denominated non-monetary assets classified as available for sale.

ii) Interest rate risk

Interest rate risk is the risk that the value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Floating rate instruments expose the Company to cash flow interest risk, whereas fixed interest rate instruments expose the Company to fair value interest risk.

The company's interest rate risk policy requires it to manage the maturities of interest bearing financial assets and interest bearing financial liabilities. At 31 December 2017, 0% of the interests bearing liabilities were denominated in US dollars and Euros.

FOR THE YEAR ENDED 31 DECEMBER 2018

c) Credit risk

Credit risk arises mainly from micro-credit loan provided to the Customers of SPBD. This can be described as potential loss arising from the failure of a counter party to perform as contractual agreement with the SPBD. The failure may result unwillingness of a counter party or decline in his/her financial condition in adverse environment. Therefore, SPBD's credit risk management activities have been designed to address all these issues.

SPBD Center Managers and the Team Leader have the proper introduction to the village chief before a new center is opened. All interested women have to undergo a 6 session training to know about SPBD and the financial services offered. Potential clients must attend all sessions and has to undergo the final test to check their understanding of the SPBD Program. All potential clients must adhere to the five point decisions that SPBD requires:

- They must be willing to start or operate a business/economic activity
- They must be willing to attend the weekly meeting
- They must be willing to pay the weekly payment
- They must be willing to form a group and
- They must abide by the group guarantee and group rules.

All loan applications must be endorsed by the Center Chief and the Center Secretary. The Center Manager evaluates the loan application and submit to their Team Leader for endorsement. The Back-office checks the completeness and validity of the application and submits the loan application to the General Manager for approval. Once a loan has been approved a check for disbursement is prepared. During the disbursement clients are interviewed individually to check their identification, revalidate the information provided on the loan application and verify that the client fully understand the terms and condition of the loan

22. Loan Recoveries

Loan Recoveries is the total amount of payments collected from loans that have already been written off in SPBD books of account. In 2018, SPBD was able to collect some payments from default loans and take into our Profit & Loss account.

23. Resignation Fees

No resignation fees recognised in 2018.

23a Development Fees

SPBD Samoa charges a Development Fee of 3% at the time of loan disbursement.

24. Events after statement of financial position date

There were no significant events after the statement of financial position date

25. Money Transfer Operator (MTO)

SPBD Samoa has obtained an approval from the Central Bank in 2017, to start an MTO business as per License MTO018. SPBD Samoa has also sealed a partnership with the XM Services (Australia Pty Ltd) for remittance services. As per signed agreement, XM Services provides Pre-Fund to SPBD Samoa for MTO pay outs, and on-line system was set up by XM Services for remittances. SPBD Samoa has collected \$40,886 commission in 2018 for the services that we have provided. XM Services (Australia Pty Limited) has remitted ST\$12,010,372.88 and SPBD Samoa has paid out ST\$12,203,140.17 in 2018, thus the outstanding balance was (\$270,324.72) as reflected in the Other Receivables. There was a significant increase in remittances in 2018, and about 20% on total remittances to Samoa is handled by SPBD Samoa.

PORTFOLIO DESCRIPTION REPORT

Portfolio Composition

SPBD adopts the Grameen Bank’s group solidarity lending methodology. SPBD’s loan portfolio consists of two types: client loans and staff loans. Group loans are made under the provisions of SPBD Credit manual. Staff loans are made under the provisions of the employee loan program as outlined under SPBD Human Resources Policy Manual.

SPBD offers the group loan products: (1) 52-week loan product, (2) 17 weeks loan product, (3) SME loan product, (4) OWL and (5) Education loan product. Minimum first loan sizes are ST\$500 and ST\$300 respectively. All loans are amortized in weekly instalments. These loan types are unsecured except for SME loan product. The first loan (regardless of loan product) should be used exclusively to expand or establish a microenterprise to be managed by the client herself. Subsequent loans can be used for any or a combination of the following purposes: business, home improvement and education of children. Loans are disbursed at the SPBD office while loan repayments are collected at the village based weekly meetings by SPBD staff. A loan must be paid off before another loan is issued to the same client.

Loans Disbursed in 2018

Loan Type	# of Loans	Amount of Loans	Amount as % of Total Portfolio
Micro Loans	6,254	14,807,145	69.7%

Total	6,945	17,923,883	100.0%

Ave. loan size at Disbursement

2,581

SPBD clients must use the first loans for starting or expanding micro-businesses. If these micro-businesses are doing well, they can then apply for housing improvement and educational loans for their subsequent borrowings. Housing improvement loans are typically used to buy concrete, timber roofing, plumbing or electrical supplies to significantly upgrade their homes. Educational loans are typically used to pay for school fees, school uniforms and text books.

PORTFOLIO QUALITY

SPBD loans are staff's number one priority to keep the loan portfolio healthy. They strictly apply the credit rules and policies outlined in SPBD Credit Manual. As SPBD only offers unsecured loans, we rely on good clients and projects selection as a primary tool to ensure portfolio quality is good. When a client does not have a payment, we apply the group guarantee policy and ask her group members to make a payment for that client. The principle of group guarantee is clearly communicated and explained in program training, knowledge test, loan application and loan interview, and is regularly reinforced through weekly meetings and periodic trainings.

Loan Types	# of Accounts	31-Dec-18			31-Dec-17		
		Outstanding Principal Balance	PAR > 30 Amount WST\$	PAR > 30 Days (%)	Outstanding Principal Balance	PAR Amount WST\$	PAR > 30 Days (%)

over 4 weeks in arrears							
Grand Total	7,782	14,636,642	155,581	1.06%	11,253,123	94,895	0.84%

SPBD defines portfolio at risk (PAR) as:

Outstanding principal amount of all loans that have one or more instalments of principal past due by 30 days

Gross Loan Portfolio

SPBD MICROFINANCE (SAMOA) LTD.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2018

A loan is considered in arrears when a due weekly payment is missed and that group guarantee does not work. SPBD does not have any late or penalty fees. SPBD staff then follows the procedures outlined in the SPBD Credit Manual to get clients in arrears back on track as soon as possible. A significant portion of operation staff compensation is directly linked to the quality of loan portfolio under his/her management. Parallel to these efforts, SPBD provisions to ensure that adequate reserves are maintained for potential losses as outlined under SPBD Loan Loss Provisioning and Write-off Policies outlined in note A above.

Loan Accounts Outstanding

The numbers of outstanding loan accounts as at the end of the financial year were as follows:

	31/12/2018	31/12/2017
Number of outstanding loan accounts	7,782	6,941

Savings Accounts

The numbers of voluntary savings accounts at the end of the financial year were as follows:

	31/12/2018	31/12/2017
Number of savings accounts	20,050	19,704

Interest Accrual on Late Loans

Interest on unpaid loans is accrued up until the time a write off decision is taken. Interest is then written back.
